

Auto Shop Equipment Repair

Auto Shop Equipment Repair

Dear Auto Shop Owner/Manager,

How would you like to increased productivity with safety and protection?

EVT Inc would like to introduce you to new products, which features safety and protection while assisting technicians with everyday work and easier task mobility. These products will provide a safe environment and ergonomics to your mechanics and/or tire installers. Also, these products will help prevent the risk of injury and provide a lower Worker's Compensation cost for your company.

EVT is the distributor of three (3) safety units which are available. I have provided you below with 3 key featured products your company may be considering for safety factors:

- **Tire & Wheel Lift**
 - Air Operated
 - Easy to Use
 - Two parking brakes (ensures lift will not move)
 - Low Center of Gravity
 - Rotating Casters
 - Air Operated Control
 - Made in America
